

The Vision for suicide prevention in Cheshire and Merseyside is...

“A region where suicides are eliminated, where people do not consider suicide as a solution to the difficulties they face. A region that supports people at a time of personal crisis, that builds individual and community resilience for improved lives.”

## Why should I get involved?

- To meet like-minded people who may have had similar experiences.
- Training is available to improve your self-confidence, look after your mental health or develop skills to support someone else who might be struggling.
- To have your say in what else the LEN could do to support those who need it.

## How can you help?

There are different ways you can get involved:
