28th November Bush Craft JH Print and Make Baubles Stock Duties	29th November TB Testing Cattle Stock Duties	30th November Classroom Christmas Decorations Stock Duties	1st December Stock Duties Make Fat Balls for the Birds

Good afternoon

Where did October go? I have attached November's calendar. All the dates and activities are subject to change. We opened for our fourth day on Mondays at the beginning of September and the response for places was fantastic.

We have just celebrated our 1st year at Let's Farm. We are very pleased with how it is evolving. We are working on things in the background to better our offer and give our rangers more opportunities. The rangers are all a credit to themselves and you as parents and carers. They work so hard and are all keen to learn we couldn't ask for more.

In November both the cattle and the ewe's will be having ultrasound scans to see how many calves and lambs we will be expecting next year.

We are going to start working with another farm starting in November. More detail will follow as we build our partnerships and collaborative working with other organisations across Cheshire.

The rangers really liked the session we did in Bluebell woods, so we are going to be trialling a 4-week pilot. Again, if it is successful and there is a demand for it, we can look at extending the offer.

The rangers will be working on their entry into the Darnall Christmas tree event throughout November, in readiness for it going on display in the church at the beginning of December. When you will all be welcome to visit it and look at all the other entries.

If you ever have any questions, queries or want to extend your days, please don't hesitate to contact me.

As ever, thank you for your continuing support.

Kind Regards from

The Let's Farm Team

Nicola Colenso
